The Arizona Contractors Association Supports Rosemont Copper Mine in Southern Arizona

(Phoenix, AZ) -- Recently the Arizona Contractors Association's Board of Directors unanimously voted to support the Rosemont Copper Mine Project in Southern Arizona. The Mining industry's economic impact on Arizona is staggering at over \$10 billion a year and that is important to ACA and our members, however just as important is Rosemont Copper's commitment to the community, education of our children, maintaining scenic value in southern Arizona, preserving water and the use of modern technology to expedite efficient and precise mining operations.

ACA's President/CEO David Jones, sent a letter of support to Rosemont Copper's CEO Rod Pace. It stated "On behalf of The Arizona Contractors Association, Inc's Board of Directors, our 300 member firms statewide and the rest of the construction industry community in Arizona I encourage all Arizonans to support the development of the Rosemont Copper Mine in southeastern Arizona. This project will help stimulate the economy and the construction industry by creating more than 2,900 direct and indirect jobs statewide and will have an annual economic impact of nearly 1 billion dollars in Arizona."

Over 50 years the Arizona Contractors Association has represented both commercial and residential general contractors, subcontractors of all trades, developers, architects, engineers and professional who lend their services to the construction industry. ACA represents nearly 300 members from across Arizona, who joins in a common mission to provide corporate, political and civic leadership in the Arizona construction industry for the benefit of our companies, employees and our communities. ACA is the foremost construction association in the dissemination of superior information and technology, opportunities for business networking and is the industry's legislative liaison to facilitate excellence, professionalism, advancement and profitability for the construction industry in Arizona.
